H.E.A.R.T.

Heart Energy Achieving Real Transformation

Are you ready for a HEART-Storm with Sacred and Wild Nature?

The power of our intent can create real transformation to assist the Earth and Nature. The collective power of a focused group can create more change, and faster. It is time to bring another group together to hear, answer and act on Nature's call for regeneration..

To this end, you are invited to join a small group of like-hearted individuals gathering in real time, with the sacred Heartlands, in order to work with our hearts' energy to achieve the transformation that Nature requires at this time. You will literally be engaging in discussion with Mother Nature herself, agreeing on the tools and enhancing the skills to expand the effect around the world. You are called to be part of this gathering because you have the consciousness, experience and energy necessary for this work. You know that we achieve miracles every day; with our intentions, meditation and prayers.

Over these days we will be:

1. Connecting with wild nature to find out what is needed from us at this time.
2. Receiving information on a way forward, personally and globally, during this time of transformation.
3. Co-creating the vision of the future according to Nature's guidelines.
4. Forging the way for this, and future groups, to achieve change.
5. Deciding upon the most important issues to work upon and what physical actions and timescales these involve.

THURSDAY 29th July

WELCOME AND INTENTION SETTINGS

Introduction to the HEART space

4pm – 6pm (Lion-time)

At 4pm we will come together on-line for introductions and intention settings. Linda and Wynter will be coming to you live from Tsau! in the midst of the HEARTlands.

This is where we create a safe space for everyone; physically, emotionally and on a HEART level.

We end off by 6pm, where we say farewell until the next day.

A closing meditation sets the intention for the time ahead.

Throughout our time together, be aware of your dreams and record them in your journal. They are usually significant to the journey.

FRIDAY 30th July

CLEARING and COMMUNICATING
Listening with a clean Heart

6am – 8am (Lion-time)

We arise early for our first virtual visit to the sacred lands and a personal introduction to the beings who call this place their home. This is a time of greeting and introducing yourself to the land and the wildlife.

During this time, you will be guided into a silent meditation with the wildlife, in order to open your heart to be cleansed by the energy of Mother Nature.

After the visit we leave to rest and prepare for the afternoon workshop. You may decide to continue to connect and communicate with the morning's natural participants. Make the time to journal your findings from the morning's experience. Every feeling, sensation, mental image or "knowing" will be important for our future time together.

4pm– 7pm (Lion-time)- with a half hour break.

We start our work to truly connect with the messages from the morning. We discuss any themes running through the messages and how we can work together to achieve real transformation. As we end the day together, you will have the opportunity to watch the national geographic documentary, "The Return of the White Lion", at your leisure, for those who are not familiar with the story of Linda and the White Lions.

SATURDAY 31st July

THE MYSTERIES

Revealing the StarLion information

6am - 8am (Lion-time)

After a guided meditation with Wynter to help us clear our hearts and connect with the StarLions, we visit the prides to connect and commune with them. We maintain respectful observation and silent connection into their world, of which you are now a part.

In your own time, once again journal what has shown itself to you during the connection time with the lions and nature. You will be encouraged to share your experiences with other participants, individually or in groups, using the virtual community facilities on offer.

4pm - 5pm (Lion-time)

Linda explains the mysteries of the White Lions and the importance of the Nile meridian and the significance of this project in these times.

5:30pm - 7pm

Workshop time with Wynter to expand on the transformation work. Wynter explains the HEART method and leads us in any relevant visualisation exercises that may be called for at this time.

SUNDAY 1st August

EXPLORING EXPANSION

Understanding your significance in the bigger picture.

6am – 8am (Lion-time)

We join Wynter at Mbube, home to the Royal Akeru prides. Mbube is part of Tsau Conservancy, but lies half an hour's drive to the south. These sacred lands hold ancient indigenous wisdom. Marah's descendants roam in a protected area of these lands. Our Lion visit focuses on the messages from the prides who live here in their protective space.

4pm – 7pm (Lion-time)

We gather to focus on the messages that have come to us from the land and what is needed for expansion of safe territories for all Lions in Africa. We address the issues facing the Apex predator of our lands and what is needed to restore balance in the whole eco-system.

We end our gathering in Sacred Practice at the "Tree House" in the middle of the HEARTlands.

MONDAY 2nd August

WILD WISDOM

Expanding HEART from the Heartlands into
Greater Kruger

6:30am- 8:30am (Lion-time)

This morning we gather for a group meditation before we visit the Olifants River in the Kruger Park.

<https://www.africam.com/wildlife/olifants-river-live-wildlife-channel/>

In live time, we see and hear what is happening in the bushveldt. We ask respectful permission before connecting in observation with our clean hearts to listen to and love mother nature in all her glory. We gather together for a brief sharing of what was seen, felt and acknowledged.

Today is a day of planning- where we start the process of manifesting positive change based upon the messages received from Nature. Participants workshop around how to start applying the knowledge received over the last few days into our daily lives, working within our localities, for global change.

4pm-7pm (Lion-time)

The group works towards a summary and plan of sacred action. Optional evening activity is to return to Olifants River to immerse yourself into the Sunset energy of the bushveldt. Spend as long or as short a time as you feel in this space, before your evening meal and a good night's rest.

TUESDAY 3rd August

COMMITTING TO CHANGE

Creating balance for all species

Today we visit another part of the Greater Kruger, Djuma in the Sabi Sands.

<https://www.djuma.com/djuma-waterhole/>

6:30am-8:30am (Lion-time)

We gather for our early morning meditation before visiting the Djuma Waterhole. We spend a couple of hours here tuning in, listening with all of your senses to what the wisdom of the wild is sharing with you. We connect with all of the species to receive guidance on the way forward. After our early morning immersion, we work individually and in groups to consolidate all of the information received during our time together.

4pm - 7pm (Lion-time)

Together we commit to creating change and work with visualisation processes to manifest a new way. The practical implications will be discussed, and a way forward will be found.

We close our time together with Linda leading a ceremony of thanksgiving. Participants reflect back on the guidance received in the intention settings and what has been achieved for them personally. We set the intentions for the future as a HEART Pride.

A HEART meditation seals our commitment of the HEART, together.
